

BUNDL FEATURE OVERVIEW

DIGITAL MONITOR FEATURES:

- Blood Oxygen Level (SpO2) tracking
- Heart Rate Monitoring
- Skin temperature monitoring
- Motion and Activity Tracking
 - Detect Stress vs. comfort states
 - Movement frequency and intensity
- Sleep State Detection
 - Awake/ light sleep / deep sleep indicator

→ **COST DRIVER ASSUMPTIONS:**

- Rechargeable internal battery
 - Battery Type: Lithium-polymer (Li-Po)
 - Continuous monitoring for 24-36 hours
 - Standby Mode: up to 72 hours
 - Charging method: pogo-pin charging connector
 - Design assumption: the battery is non-removable
- Bluetooth Low Energy (BLE) connectivity
- Enclosed waterproof casing (splash-resistant)
- Single integrated sensor module (non-detachable)

COMPANION APP FEATURES:

- Real-time health data display
- Data driven insights and recommendations
- Sleep quality and activity pattern tracking
- Trend analysis (daily/weekly/monthly reports)
- Parent alerts for irregular readings
- Data stored securely
- Real-time alerts (delivered via push notification and optional sound/vibration on parent phone)
 - Abnormal heart rate
 - Low blood oxygen
 - Unusual temperature changes
 - Prolonged inactivity
 - Low battery notifications

→ **COST DRIVER ASSUMPTIONS:**

- IOS and Android compatibility
- Cloud data storage included

EXTERNAL BAND DESCRIPTION:

Available colors: pink, blue, green

Design #1: Dinosaur themed (with different species and colored dinosaurs)

Design #2: Floral Pattern with light pastel colors

ANKLE STRAP FEATURES:

1. Length:

- Newborns: Approximately 3.5 to 4.5 inches (9 to 11.5 cm).
- At 24 Months: Approximately 5.5 to 6.0 inches (14 to 15.2 cm).

Band Circumference Interval: 9 inches (includes 3-inch minimum strap overlap catering to velcro-based adjustability)

2. Width:

- 27mm (~1.06 inches)
- Even pressure distribution
- Narrow enough to avoid bulk around the ankle

3. Material:

Outer Shell

Material: TENCEL Lyocell knit (140–170 gsm)

Purpose: Exterior durability, soft hand feel, breathability, moisture control

Middle Cushioning Layer

Material: Bamboo–Cotton terry (thin pile, ~2–3 mm)

Purpose: Soft internal padding, pressure distribution, breathable cushioning

Inner Skin-Contact Layer

Material: GOTS-certified organic cotton knit (130–160 gsm)

Purpose: Direct skin comfort, reduced irritation, sweat absorption

4. Adjustability Unit & Primary Fastening Unit :

Medical-grade micro hook-and-loop (Velcro)

Soft hooks (non-abrasive)

Velcro strip length: 4 inches

5. Secondary Lock Feature:

Tuck-Through Safety Channel

Integrated fabric tunnel: A flat, soft channel sewn onto the outer shell receives the Velcro overlap tail (no bulk or hardware).

PACKAGING COMPONENTS:

- Roll End Tuck Top with Dust Flaps
- Foam Packaging to hold the band in place
- Minimalist branding (single-color print assumed for pricing)
- Additional Compartment for charger and spare band
